

At the moment, Mike is not a happy, or a healthy, camper:

His medical scheme benefits are depleted, finito, caput

His wallet is literally groaning at the list of unforeseen medical expenses Mike failed to prepare for

His internet banking fees far outweigh the cost of the over-the-counter meds he's transferring money for to help take care of his Varsity kids' healthcare needs

At a weekend braai, Mike meets a rather helpful, not to mention savvy, broker who suggests he looks into the nifty **Zurreal Healthcard**, the ideal solution to all of Mike's woes.

One conversation and a quick and easy application process later, Mike's frown was quite literally turned upside down with his happy meter going from 0 to 100.

Mike's *Healthcard* can be used at any medical service provider with a point-of-sale terminal facility

He's not tempted to spend his healthcare savings on a new golf set with the card only being valid at medical service providers

The *Healthcard* is not linked to a specific medical scheme, meaning anyone can have one

He can request multiple secondary cards for his kids and have full control over the allocated funds

Mike is now able to ensure he's always financially prepared for any healthcare eventuality, including those goods and services sometimes not covered by his medical scheme

Mike now has available funds to cover his healthcare needs when his medical scheme benefits have been depleted

He earns market-related interest on credit balances

He is able to withdraw accumulated funds at the end of each year

How does Mike fund his Zurreal Healthcard?

The **Zurreal Healthcard** is the only one of its kind that allows Mike to decide how much he'll save per month. Best of all, it's ridiculously quick and easy with the card funded via:

- 1 A monthly debit order
- 2 An electronic transfer
- 3 Over-the-counter deposits at any Absa branch

While Mike is online, he can also:

- 1 Activate his card via a secure portal
- 2 View transaction statements
- 3 Change his PIN
- 4 Block a card should one of the apples of his eye misplace their card

A convenient mobisite allows Mike even more convenience at the swipe of a finger as he:

- 1 Activates his card(s)
- 2 Enquires about his available balance
- 3 Accesses mini statements
- 4 Reports a lost or stolen card

With Mike's newfound healthcare freedom, he decided to spoil himself by signing up for the unique **Zurreal Platinum** wellbeing and rewards programme where, get this, where, he can earn up to **R16 900** in cash rewards

Here's how:

Up to **R6 900** for undergoing a range of annual preventative health checks

R8 500 for regularly sweating it out in the gym

R1 500 for participating in selected sporting events

An annual **R3 500** education bursary while his kids finish up their studies at a registered South African tertiary institution

Want to enjoy true healthcare freedom and unique rewards like Mike and his family?

Visit www.healthcard.co.za or call **Zurreal Healthcard** on 011 796 6464 for more information now.
